Sir,

With reference to your letter No AS C 960/43-44 dt 16-4-44 regarding the estt required in connection with the opening of the ml Grain Depot in the city, I am directed to invite reference to Govt No L 485 7/ml 143-43 dt 17-7-44 sanctioning the opening of the above Depot & the entertainment of a clerk on Rs 30 p.m. & 2 measurers on Rs 15 each p.m. therefor. In this connection I am to point that the proposed subsequent estt for the Depot seems to be costly & that there appears to be no need for entertaining such a costly estt and to request you to furnish information on the following points—

(1) What is the amount of cash transactions that is being done every day? And also what is the number of such transactions only month from the date of starting the depot?

(2) What is the total number of rations cards attended to every day?

(3) Would it not be possible to manage the work with one clerk & two measurers?

(4) What is the strength of the estt for a grain Depot run by the Govt in the city—

GEN LA

SIR

As desired in your letter No L 555 dated 19-7-1944, I have the honour to furnish hereunder the particulars required in connection with the proposal made to entertain additional establishment for running the Municipal Grain Depot in the Bangalore City

| | |
|---|---|
| 1 What is the amount of cash transactions that is being done every day and the volume of such transactions every month from the date of starting - up-to-date? | Daily average transaction of the Municipal Grain Depot works out to Rs 120/- and on certain days it goes so high as Rs 500/- and more |
| 2 What is the total number of ration cards attended to every day? | The number of ration cards attended to daily are more than 200 on many days in the month and less on certain days, as no uniformity can be maintained |
| 3 ould it not be possible to manage the work with one clerk and two measurers? | It is not at all possible to work the Depot with one clerk and 2 measurers, on account of the nature of the work that is transacted in this depot, and the type of persons that have to be dealt with viz , |

(a) The scavengers and sweepers get their rations on credit and the amount has to be recovered during the disbursement of their pay, which has to be done by the clerk in charge of the Depot

(b) The men come to purchase rationed articles only after 5 30 or 6 P M when their work in the Division is over and there would always be general rush in the evenings, every one trying to go away as early as possible

(c) As the credits are being allowed, proper ledgers and accounts have to be maintained for the proper recovery of the amount

(d) The depot clerk has to arrange for the bringing of rationed articles from the Government Godowns and look after the maintenance of stock and proper issues He has to get the accounts daily audited He has to maintain the several accounts which the Ration Authorities have prescribed and send the timely returns One man cannot write the bills and see that the articles are properly measured

4 What is the strength of the establishment, for a grain depot run by the Government, in the City?

The strength of establishment in a Government Depot is ascertained to be as follows -

1 1 Manager
2 1 Bill Clerk
3 2 Measurers
4 2 Peons

(No credits are being allowed)

I have the honour to be,
Sir,
Your most obedient servant,

Municipal Commissioner
